## Moving Piccolos

Step

What do you have to do?

Photo

Always use the appropriate PPE (personal protective equipment)!

1

The operator must visually inspect the lifting eyes of the Piccolo.

- Are the lifting eyes in good condition?
- Are they securely mounted?

2

Attach the four-leg lifting chain of the crane to the lifting eyes.

**Beware!** Always use all four lifting eyes.

3

When moving the Piccolo using forklift forks: Use the upper fork slots.
